

CHAPTER 6

Weeds Don't Need Fertilizer

If left alone, a yard will grow into disarray, not order. Understanding that life tends to lean away from our desired outcomes is the beginning of wisdom.

Anyone who has ever purchased stock or made a private investment knows one thing—the timing of negative events is inexplicable. Stocks rarely go up when you buy them, and the market always takes longer to correct itself when your money is on the line. It isn't personal, although it sure seems that way.

The market doesn't know your name. At play is the natural tendency for weeds to grow. Without pruning, watering, or care, weeds thrive. This fact became even more evident after seeing a recent advertisement.
